COUNTERFEITERS BEWARE.

A Michigan Concern Enjoined.

[From the Rochester Morning Herald.]

The following injunction has been obtained by the Hop Bitters Company, of Rochester, N. Y., against Collatinus D. Warner, of Reading, Michigan, prohibiting him from manufacturing or selling "German Hop Bitters."

The President of the United States of America to Collatinus D. Warner, of Reading, Mich., his servants, workmen, salesmen and agents, and each and every one of them.

Whereas, it has been represented unto the Justices of our Circuit Court, the Hon. Stanley Matthews, and the Hon. Henry B. Brown, at Detroit, within and for said district, sitting as a court of Chancery, that you, Collatinus D. Warner, are manufacturing and selling a medicine named German Hop Bitters, in fraudulent imitation of the Hop Bitters made and sold by complainant, your said medicine being devised, calculated and intended to mislead the public into purchasing such counterfeit goods as the manufacture of the complainant.

We therefore, in consideration of the premises, do strictly enjoin you, the said Collatinus D. Warner and all and every the persons before named, from using the words "Hop Bitters" on any fluids contained in bottles so as to induce the belief that such fluids are made by complainant and further, from manufacturing, selling or offering for sale, any bottles or other fluids in the bottles and with labels, and in the general form in which you were manufacturing and selling the bitters, called by you German Hop Bitters, on the filling of the bottle, or in any other bottles, or with any other labels contrived or designed to represent or induce the belief that the bitters or fluids sold by you are the goods of the complainant, until the further order of the court.

Witness the Honorable MORRISON R. WAITE, Chief Justice of the United States, At Detroit, this 15th day of July, A. D. 1885.

Walter S. Harsha, clerk.

Prosecute the Swindlers!!!

If when you call for Hop Bitters the druggist hands out anything but "Hop Bitters" with a green cluster of Hops on white label, shun that druggist as you would a viper; and if he has taken your money for a bogus stuff, indict him for the fraud and sue him for damages for the swindle, and we will reward you liberally for the conviction.

See U. S. Court injunction against C. D. Warner, Reading, Mich., and all his salesmen, agents, druggists, and other imitators.

Strike of Switchmen on the Fort Wayne Road.

By Telegram to THE SENTINEL.

CHICAGO, Sept. 8.—The strike of switchmen on the Pittsburg, Fort Wayne and Chicago road became more general to-day, all switch engines employed by the company on their tracks in Chicago having been abandoned by the crews. The men say the trouble grows out of the action of Thomas Griffin, the yard master, in giving an inexperienced man a place as switchman on an extra engine.

AN ATROCIOUS CRIME.

A Young Lady Fatally Poisons Herself and Two Others.

By Telegram to THE SENTINEL.

URBANA, Ill., Sept. 8.—There is much excitement at St. Josephs, this county, over three mysterious deaths which have occurred within a short time in one family. Mr. and Mrs. Hiram Peabody were prominent and honored residents. Miss Belle Hasty, a young woman of fine character and pleasant manners, lived with the Peabody family and was said to be engaged to young Silas Peabody. Young Peabody's parents, particularly his mother, were opposed to their marriage owing to Miss Hasty's poor health.

On August 2 Mrs. Peabody died very suddenly, of what appeared to be neuralgia of the stomach. On August 17 Mr. Peabody died with the same symptoms. On Sept. 1, Miss Hasty and young Silas Peabody were taken with the same symptoms and the young lady died, while the young man recovered. Since that time suspicion has been awakened by the alleged discovery that a package of rat poison was pinned to an undergarment which Miss Hasty had laid off just before her death, and that the latter had poisoned Mr. and Mrs. Peabody with hopes of marrying the son and then concluded to kill him and herself.

Injunction Denied.

By Telegram to THE SENTINEL.

PINE BLUFF, Ark., Sept. 8.—The Western Union Telegraph Company applied to the courts at Little Rock, Arkansas, last week, for an injunction to prevent the Arkansas Telegraph Company from building a line along the right of way of the Little Rock, Mississippi and Texas Railroad, between Pine Bluff and Little Rock, claiming an executive contract with the company. The injunction has just been denied, because at the last session of the Arkansas State Legislature a telegraph law was passed similar to that in effect in nearly every other State in the Union, granting telegraph companies rights of way on all railroads in the State of Arkansas.

The Arkansas Telegraph Company is a branch, or extension, of the Baltimore and Ohio system to Little Rock, Hot Springs, and other important places in this State. Material is on the ground, and work will now be pushed forward rapidly. Little Rock will probably be connected with the Baltimore and Ohio system by September 20, and Hot Springs thereafter. Arrangements have also been made for an extension to Memphis, Tennessee.

In an Inebriate Asylum.

CHICAGO, Sept. 8.—The Inter-Ocean's Oskosh, Wisconsin, special says: Senator William Cochrill was brought here by his recently-appointed guardian, Mr. Wasson, who had a commitment from the County Court of Milwaukee, to confine the Senator in the insane asylum here, for two years, as an inebriate.

By the Poison Route.

By Telegram to THE SENTINEL.

New York, Sept. 8.—This morning the dead body of a man was found in

a summer house in Central Park. He was about sixty years of age and had gray hair and a full gray beard. On his person was two phials of poison, labeled at Washington, a package of arsenic and a large revolver. He is supposed to be P. S. Bush. He had letters addressed to all newspapers of the city.

Death of Mrs. Bowser.

Elizabeth, wife of Isaiah Bowser, died at Hoagland, Ind., Sept. 4, 1885, aged 44 years, 1 month and 4 days. The lady and her family are well known here, having lived here for a number of years, and were highly esteemed by all who knew them. Her afflictions were long and severe, but as only a true Christian could do, she endured it all patiently and died in great peace. She leaves a kind husband, three sons, one daughter, three sisters, an aged father and mother, with many friends to mourn. The funeral services were held in the Lutheran church just west of Hoagland, Saturday, and conducted by Rev. J. P. Stewart, of the U. B. church, of this city. Several months before she died, she selected the minister, the text and the hymns for her funeral. We all join in sympathy for the bereaved.

The Wabash Gossip.

General Master Mechanic Barnes says he will not resign his position if his health permits him to hold it. He is now suffering from pleurisy and Mrs. Barnes is quite ill. This morning with Master Car Builder Martin and Master Mechanic Morris he made a tour of the Wabash shops. The Associated press dispatches tell us that Colonel Talmage made a settlement with the Knights of Labor, agreeing to give old locked out men the preference of all others in hiring new men. These are the terms Mr. Barnes predicted a week ago would be made. The SENTINEL gave them at the time.

A Naughty Cousin.

Elizabeth Wasserbach stepped into Justice France's court this morning and charged Fred Grossman, her cousin with being the papa of a child she carried in her arms. Grossman, who is the son of a wealthy farmer, did not deny the impeachment, but provided for the support of the infant and gave the girl \$280 in settlement of the little affair. Miss Elizabeth has not been over much more than a year and first lived with her uncle. She now resides in the city.

The Bash Fire.

An adjuster representing the Liverpool, London and Globe Insurance company arrived in the city to-day. It was in this company the Bash warehouse building and fixtures were insured for \$8,000 and he comes here to square the claim that the Messrs. Bash can at once re-build. In addition to the \$25,500 insurance held in the Lumbard agencies, D. L. Harding held \$6,000 on the building and stock, making the total insurance \$31,500.

Equine Paradox Matinee.

Professor Bartholomew and his horses will give an afternoon performance to-morrow. Each lady will be presented with a handsome souvenir palette of "Nellie" and after the performance the audience can go on the stage and pet the horses. The smallest horse in the world will also appear at the Wednesday matinee. He was born seven weeks ago, at Detroit, and weighs only thirty pounds.

Death of Frank Keifer.

At an early hour Sunday morning, Conductor Frank Keifer, of the Wabash railway, died at his home in Andrews, of typhoid fever, from which he had been prostrated for some weeks. The deceased was well known in Fort Wayne. He was about 29 years of age and a member of the Brotherhood of railway conductors.

Victims of youthful indiscretions, suffering from nervous debility, lack of self-confidence, impaired memory, and kindred symptoms, should send 10 cents in stamps for large illustrated treatise, giving means of certain cure, with numerous testimonials. PARIS, Sept. 8.—The majority of the newspapers here expect the strong anti-German feeling provoked throughout Spain by the Caroline affair will result in a revolution in that country, as the people manifest a hostile feeling against King Alfonso and his ministry. Lopez Dominguez will be made premier of Spain. He alone can prevent anarchy and command peace. His acceptance is not confirmed.

King Alfonso has just declared he has confidence in his present ministry, and preferred peace to bloodshed. The king believes Germany will meet him half way and already advices come that the German gun boat has withdrawn from the Island Yap.

PARSONS, Kas., Sept. 8.—Heavy rains have flooded the streets and water rushed through with fearful velocity, covering the walks and flooding cellars. The city is surrounded by water, which in some places is several miles wide. Many people living in the suburbs of the city are compelled to move to higher ground. Crops on bottom lands are a total loss. No train from Kansas City came in since Sunday night. In several places east and north of here water is running over the track and washouts are feared.

The Yacht Race Off.

By Telegram to THE SENTINEL.

SANDY HOOK, Sept. 8.—On account of the collision between and accident to the competing yachts Puritan and Genesta, the race is off for to-day. The Puritan fouled the Genesta.

The Great Yacht Race.

By Telegram to THE SENTINEL.

NEW YORK, Sept. 8.—The cup for which the "Genesta" and "Puritan" are now contesting is held in this country by virtue of the sailing of the yacht "America," and was won thirty-four years ago, and has never been recaptured by the English sails. It was offered by the Royal Yacht Club, in 1851, during the great World's Fair of that year, open to yachts from all nations. The race in which the "America" carried off the cup was called on August 25, there being eighteen entries. The "America" won by twenty minutes ahead of the best of the other vessels.

SANDY HOOK, Sept. 8.—The bay is dotted with yachts of every size and shape. Each is crowded with people who have come to witness the race for the American cup, between the British yacht "Genesta" and the American yacht "Puritan." The program of the committee governing the international race between the vessels, was as follows: The first race was to be twenty statute miles to windward, or to leeward and return from Scotland lightship, if it is possible to make a course from that point; if not, from Sandy Hook lightship.

The "Puritan" was saluted by nearly every steam yacht in the fleet, while on her way to the Scotland lightship, the starting point. The "Genesta" remained in the horse-shoe while Mr. Wm. Kreho, of the New York Yacht Club, representing the "Puritan," was put on board from the judges' boat. She then proceeded under sail, on the port, and took to the lightship. The English yacht was also saluted by a large fleet of yachts now under way. The tide was running flood during the forenoon. Two hundred and seventeen vessels, of all sizes and rigs, were assembled within a circle of a mile of the Scotland lightship. After a tedious waste of two hours, after the arrival of the contestants at the lightship, the starting signal was given from the judges' boat at 1:35. By skillful maneuvering the skippers of both yachts brought them close to line between the

judges' boat and lightship on the port tack, to cross it. In a few seconds after the starting signal, the Puritan slipped across first, close up to the judges' boat at 1 hour, 35 minutes, and 55 seconds, but for some reason Captain Centre, of the Genesta, tacked to the starboard just before reaching it, losing 1 minute, and 42 seconds, being handicapped 37 seconds thereby. She crossed at 1 hour, 35 minutes, and 37 seconds, the official time. Captain Crocker, of the Puritan, which boat looked very handsome with her main sail, spirit topsail, meant "fight" from the start. As the Genesta crossed the line, the Puritan came about, and in thirty seconds had fled away on the starboard track, with the Genesta a hundred yards on her lee beam. The course was right in the wind's eye, southeast, and the tug had started ten minutes before to lay out the twenty miles to windward and place a stake buoy for the yachts. The yachts cheered them by shouts from its hundred spectators, and the immense flotilla of pleasure boats that witnessed it. The contestants headed due east of their first reach. Finding he could neither pass the "Puritan" to leeward, or "out-point" him, Captain Carter, after twenty-three minutes, suddenly put the Genesta about to cross the "Puritan's" stern, but Capt. Carter put his helm down at once, bringing the handsome white sloop round in forty seconds later. The Genesta was full of tricks, for round she came again, and in less than a minute followed by the Puritan again in 30 seconds. Both yachts were carrying exactly the same canvas. Instead of gaining by the little skirmish which he inaugurated, Capt. Carter had lost, and the Puritan gained decided advantage. Both at a rate of 3:07 reached to the southward. Now the Puritan began to open a gap between herself and the Genesta, and when they next tacked to the eastward, at 4:11, she was fully three-fourths of a mile to the windward of her antagonist, and one-eighth of a mile ahead. At 5 o'clock and 11 minutes both tacked to the southward again, and now the Genesta was over a mile on the Puritan's lee quarter. At 6:30, when the judges' boat arrived at the outer mark, it was sundown. The winds were growing lighter, and the yachts being then two miles to the leeward, it was evident the race could not be sailed within the required time of seven hours. So the regatta committee ordered it postponed until to-day, when the boats will start at the same hour, and over a similar course. The contest is thought by experienced yachtsmen to be convincing proof that the Puritan can beat the cutter under any conditions.

The Absconding Township Trustees of Davies County.

By Telegram to THE SENTINEL.

WASHINGTON, Ind., Sept. 8.—There are some new developments in the Davies county trustee funds. Grimley, Brown and Clark, the absconding trustees have been seen and interviewed in Hamilton, Ont. M. J. C. Billheimer, one of the attorneys of Washington, went to Canada shortly after they disappeared, and came across them in Hamilton. Mr. Billheimer says, "when I arrived in Hamilton, Ont., I found three of the gloomiest trustees I ever saw."

They offered no apologies or explanations concerning their scheme, but blamed a Chicago party for a good part of the mischief. "I do not believe the three trustees have much left, but I think the Chicago man bent them out of about all they raised on the fraudulent warrants, because the paper was made out to his order and he made no promise to hand over the money to them as he disposed of the paper. It is a fact, however, that neither of the three could approximate how much paper they had issued. The total amount cannot be estimated at less than \$250,000 for the three townships." This and the fact that Posey county had discovered an apparently illegal issue of \$8,000 of certificates by a former trustee has caused consternation among people of this section and may result in an extra session of the legislature for the purpose of amending the laws, which at present, it is said, allows trustees almost unlimited power in raising money for which value received does not enter as a consideration.

The Corn Crop Safe.

By Telegram to THE SENTINEL.

CHICAGO, Sept. 8.—The Farmers' Review prints the following summary: On the corn crop the outlook is based on its latest reports from its correspondents. The cold, damp weather which has prevailed during the past week has retarded the maturity of the corn crop. In spite of it, however, some progress has been made. Frosts have been experienced in many localities, but none of sufficient severity to do any injury to the corn. At this writing, September 7, we judge that three-fourths of the corn of the entire country is past danger from frost, and we have a strong confidence of the full maturity of the largest crops of corn ever grown in this country.

Mistaken for Consumption.

We have known persons to doctor for consumption, all to no effect. Though they had a cough, felt pains in the lungs, were depressed, weak, with many other symptoms tending to that disease, yet there was no structural unsoundness of the lungs. These symptoms were all the painful offshoots of a torpid and diseased liver. We could fill a volume with testimonials of thousands so affected who were permanently cured by taking Simmons' Liver Regulator.

OFFICIAL PAPER COUNTY AND CITY.
TUESDAY, SEPT. 8, 1885.

The owners of the London Times offered to sell out the other day. They only wanted \$250,000,000 for their newspaper.

ATLANTIC CITY is said to have a flag so wired that it cannot hang limp, even if there is no breath of air stirring. It is fixed above the gable of a hotel, and is intended to convince the heated guest that his discomfort is imaginary.

A St. PAUL shop girl was discharged from her position in a fashionable glove store because her hands were so small and delicate as to put to blush its lady patrons, thereby seriously affecting sales. Such was her statement, and a doubting newspaper man who talked with her employers was assured that she had told but the truth.

An engineer in a quartz mill in California met with a frightful death recently. His clothing caught on a revolving wheel, and he was whirled violently in contact with the floor at each revolution. How long he was in this condition is unknown, as there was no one else in the mill at the time, and he was only discovered when his daughter went to call him to supper. The body was horribly mangled.

A whirlwind that struck a field near Marietta, Ga., a short time ago, caught up David Leedy, a colored man, who was working in the field at the time, and whisked him into the air to a height that must have been great, if he does not exaggerate his experience. He says that while up in the air the trees looked like little bushes, and the roaring wind sounded like rushing waters. His descent was so easy that he was not in the least harmed.

The recent private performances at the Munich Court Theater, which were witnessed by nobody except the King of Bavaria, cost \$150,000, and it has been decided that steps must be at once taken to put an end to the King's extravagances, which are bearing heavily on the country at a time when its finances are by no means in a flourishing condition. The German Empire and Prince Bismarck will support the royal family in any measures which they may decide to adopt. The King has wasted the immense fortune with which he began his reign, and he is said to be in debt to the public treasury to the extent of \$2,500,000.

In view of the asserted looseness of Americans' purse strings, the reason seems strange why we are not wanted at the Grand Hotel, London. "Most Americans visit London during the season," says the landlord, "and, as they do not buy much wine, I can fill the house with more profitable customers." Instead of regarding this as strictly a matter of business, these silly Americans belittle themselves by shouting about their right to accommodation at a public house so long as nothing can be said against their respectability. He has averaged it all up, and found that American custom does not pay as well as other custom.

SOME of the Salvationists indulge in a free-and-easy style of morality. Marcus Rouse, a well-to-do young farmer of Corning, N. Y., was converted by the Salvation Army a month or two ago, and two weeks ago married a young female Salvationist. In about ten days she expressed a desire to leave her husband and marry Sherman Grant, a friend of his. In return for a silver watch and \$20 Rouse resigned all claim to her, and she went to Grant's farm and is living there with him. Rouse married his wife's sister the same afternoon, and she has taken charge of his domestic affairs.

The young ladies of London subscribed and gave a rose ball recently, which the Prince of Wales made an ineffectual effort to spoil because the committee blackballed a girl whom he wished invited. He announced that he "would not sanction the festival" unless the sentence of exclusion against her was rescinded; but the girls, with unusual spirit, held on their course, and even the London World is compelled to protest against the system of social espionage and terrorism which has its center at Marlborough House.

100 DOSES ONE DOLLAR

Is inseparably connected with Hood's Sarsaparilla, and is true of no other medicine. It is an unanswerable argument as to strength and economy, while thousands testify to its superior blood-purifying and strengthening qualities. A bottle of Hood's Sarsaparilla contains 100 doses and will last a month, while others will average to last not over a week. Hence, for economy, buy Hood's Sarsaparilla.

Mosquitoes are still indulging in "personal flings."

The human system is in constant danger of becoming a prey to the many diseases it is heir to, but the Great Master in His infinite wisdom has provided the body with countless thousands of minute nerves so delicate and perfect in their construction that the slightest attack of any of these diseases is immediately telegraphed to the brain, the center of all human intelligence, and we are thus warned of the insidious advance of the foe. An acute intelligence always provides Mischler's Herb Bitters to repel approaches of this kind.

A western paper says: Nothing will cure some sick men more quickly than an office, properly applied. This "cure" may be very successful in many cases, but we would say: If a man suffers from a cough or cold give him Dr. Bull's Cough Syrup.

HAY FEVER.

I have been a periodical sufferer from Hay Fever (a most annoying and loathsome affliction) since the summer of 1879 and until I used Ely's Cream Balm I was never able to find any relief. I can say that Cream Balm cured me. I would not be without it during the hay fever season.—L. M. Georgia, Birmingham, N. Y.

I have used Ely's Cream Balm for hay fever and have experienced great relief. I recommend it as the best of all the remedies I have tried.—T. B. Jenks, lawyer, Grand Rapids, Mich. Price, 50 cents.

Eczema!

For the benefit of suffering humanity, and in heartfelt gratitude at the wonderful result, I deem it only my duty to give this unsolicited testimony in favor of Swift's Specific. My wife has been afflicted with hereditary Eczema or Salt Rheum from her infancy. It has increased in intensity with each succeeding spring, and being somewhat skilled in medicine myself, I tried every remedy I could think of for years. Sarsaparilla combined with every form of Potassium and hundreds of other remedies, lotions and alkali washes of every known kind, but they all gave only temporary relief. During the spring of 1884 her lower extremities became so inflamed and sore that she was obliged to keep them constantly coated with a cover of "Fur's Earth," inked wet and allowed to dry on. Among other things, she was afflicted with a periodical nervous headache, occurring regularly every seven days, sometimes followed by an intermittent fever for weeks at a time, so that her life became a burden to her.

This spring I determined to take S. S. S. and follow strictly the directions in regard to dose, diet, etc. This was about seven weeks ago. After taking the first large bottle the disease seemed to increase; the burning, itching and inflammation became unbearable. She, however, persevered in the use of the medicine. After taking the second bottle the inflammation began to subside. After the third bottle the inflammation disappeared and sore spots dried up and turned white and scaly, and finally she brushed them off in an impalpable white powder resembling pure salt. She is now taking the sixth bottle, three tablespoonful four times daily. Every appearance of the disease has gone, and her flesh is becoming soft, white and smooth again; and what is more, her periodical headache has disappeared and she is now, at 53 years of age, enjoying the only good health she has known for upwards of 40 years. No wonder she declares with emphasis that every bottle of S. S. S. is worth a thousand times its weight in gold.

Any further information concerning her case will be cheerfully given by herself at her residence, 135 Mullet street, or by me.

Correspondence of THE SENTINEL.
Our schools commenced to-day under the charge of our able superintendent, W. S. Walker.

Our fellow townsman, W. D. Baker, is not yet sure of his government appointment.

S. P. Stevens will discontinue the practice of medicine. He may give his entire time to the practice of law.

Frank Ginny, a young man of Madison township, and Miss Hortance J. Mongin, a belle of Arcola, will be married here next Tuesday.

Brandbery & Myers have purchased a cider mill and they will run the machinery by steam power in connection with their tile mill.

County Superintendent Felts held a very successful examination at the high school room on the 28th ult. Superintendent Felts was highly pleased with the normal school conducted by Messrs. Walker & Miller.

As yet no reliable information has been found concerning the whereabouts of Ida Bushby nee Long, who mysteriously disappeared some time ago. It is still the general belief that she has been foully dealt with.

The grist mill is now in good running order and will be run henceforth under the charge of John Pillar.

C. W. Rollins will enlarge his skating rink for the winter.

Adam Stinmen, formerly of this place, and who, in company with his family, removed to Fort Scott, Kas., a short time ago, has decided to return here. Mr. Stinmen gives a flattering report of the western states.

Christ Youse, the king wheat raiser of Madison township, has wheat that yielded over forty bushels per acre.

The prohibitionists will have a picnic next Thursday at Robinson's grove. A good time is anticipated.

Chicken and hog cholera is raging here with great fury.

PRINCE OF LIGHT.
Monroeville, Sept. 7, 1885.

A Very Radical Change.

In the alterations to the Cypriote collection of antiquities, a sculptured representation of a picnic party was changed into that of a funeral procession. They knocked out the picnic provisions and put instead the image of a corpse. Brown's Iron Bitters sometimes makes just as radical a change, only exactly reversed. It finds a poor fellow almost a corpse and brings him to such a state of health that he can enjoy a picnic party. Conquers debility, dyspepsia, and nervous prostration. Buy at the drug store.

Correspondence of THE SENTINEL.

Farmers are busily engaged in plowing.

On the 4th inst. occurred the death of Mrs. Ira Jackson, a very estimable old lady. Her remains were interred at 'Ever-green' Bethel, Whitley county, on Sunday. Her death is deeply mourned by her relatives and a wide circle of friends.

The reunion Sabbath school picnic, held in Jeffries' grove, last Saturday, was a grand success, there being seven schools present.

I. A. Ryall left last week for a few days visit in the west.

A double wedding will soon occur in our midst. The contracting parties are Mack Lee and Miss Emma Weichsel-felder and George Weichselfelder and Miss Edith Lee. We extend congratulations in advance.

Miss Lida Harper, who for several years past has held a clerkship at Washington, will return to that place in a few days after having spent a vacation with friends here.

Jessie Beosins will teach school at No. 4. He is a young gentleman of culture, and justly deserves the position to which he has been selected. PROFESSOR.
Aboite, Sept. 7, 1885.

Shakespeare was "not for an age, but for all time." This may be said of St. Jacobs Oil. So long as the world lasts, there will be rheumatic pains, and it will cure them.

Riel said last week: "I will be preserved from death at this critical hour through the divine and saving influence of our Lord Jesus Christ."

No preparation could have made such a reputation as Salvation Oil has (in so short a time) without intrinsic merit of the highest order. It kills pain. Price 25 cents a bottle.

Fort Wayne Paint and Color Works,
No. 12 West Columbia Street Fort Wayne, Indiana.

To Painters

And others wanting First-class Paints: Do you know that you have in Fort Wayne a Manufacturer of Mixed Paint and Grinders of Colors, where you can buy your Paints from first hand instead of paying the middle man his profits, which are from 25 to 33 per cent. O. L. STARKEY, the Painter and proprietor of the Fort Wayne Paint and Color Works, came to Fort Wayne in April, 1886, and is identified as one of the old citizens who has helped build up Fort Wayne, and his knowledge of Paints and the composition of pigments to form different shades and tints is well-known to the public, and his long practical experience in painting gives him the knowledge of Paints that a mere dealer cannot have for he does not know anything about Paints, as he buys them sealed up and he cannot tell you what it takes to make this or that shade. All he knows is what the label on the can says. Neither can he tell you shades that will or will not fade. By buying your Paints of O. L. STARKEY you can get all the information you want. I am making Liquid Paints in all shades and colors; also the same shades and colors in paste form, the same thickness as white lead and requires thinning down the same as white lead. In making the different shades my formulas are all registered giving the amount of each color it takes to form certain shades all thoroughly mixed together in the powder mills, then wet down and run through a mixing machine, and from there to the mills where it is all ground together making a pigment that cannot be made by hand. Call or send and get some of my sample cards of colors and tints; also see elevations of gothic houses colored up with four and five shades, which will give you a good idea how to paint and ornament the outside of your houses.

I say again, do not buy of the middle man if you want to save money. I will guarantee my prices and quality of goods with any manufacturer in the United States.

ALMOST KILLED.

John Noll and His Cousin in a Frightful Runaway Accident—Their Injuries.

John Noll and his cousin, young Siebold, who live near the county poor farm, started to drive to the city. Near the toll gate, out on the Bluffton road, their horse frightened at something and dashed madly around, overturning the wagon and dragging the boys beneath for a distance of fifty feet. Noll was mangled and battered with almost fatal severity. His right thigh bone was fractured, and bits of it protruded through the flesh. Young Siebold fared some better, although he may yet suffer bad results from concussion of the brain. His face was scraped and lacerated so that his friends could not recognize him. Drs. W. H. and H. S. Meyers attended the sufferers and relieved them as far as skill could, but make no prediction as to the result. "It was one of the worst accidents of the kind I have heard of in years," remarked Dr. Meyers.

The Equine Paradox.

This show made its bow to a crowded house at the Temple last night. It is a marvel in its way and the most pleasing and surprising exhibition of the kind ever given here. Professor Bartholomew does everything he advertises, and everything he says he will do. His field of horses surpasses anything ever seen in a circus or any other place and respond to his words like men. The show will remain all week and is the greatest curiosity ever equipped for the road. This criticism is not overdone, nor too lengthy to tire people.

COUNTERFEITERS BEWARE.

A Michigan Concern Enjoyed.
(From the Rochester Morning Herald.)

The following injunction has been obtained by the Hop Bitters Company, of Rochester, N. Y., against Collatius D. Warner, of Reading, Michigan, prohibiting him from manufacturing or selling "German Hop Bitters."

The President of the United States of America to Collatius D. Warner, of Reading, Mich., his servants, workmen, attorneys and agents, and each and every one of them:

Whereas, it has been represented unto the Justices of our Circuit Court, the Hon. Stanley Matthews, and the Hon. Henry B. Brown, at Detroit, within and for said district, sitting as a court of chancery, that you, Collatius D. Warner, are manufacturing and selling a medicine named German Hop Bitters, in fraudulent imitation of the Hop Bitters made and sold by complainant; your said medicine being devised, calculated and intended to mislead the public into purchasing such counterfeit goods as the manufacture of the complainant.

We therefore, in consideration of the premises, do hereby enjoin you, the said Collatius D. Warner and all and every the persons before named, as well as your said servants, workmen, attorneys and agents, and each and every one of them, from the selling or offering for sale, any bottles or other fluids in the bottles and with labels, and in the general form in which you were manufacturing and selling the Bitters, called by you German Hop Bitters, or the filling of the bottles, or in any other bottles, or with any other labels contrived or designed to represent or induce the belief that the Bitters or fluids sold by you are the goods of the complainant, until the further order of the court.

Witness the Honorable Morrisson K. Waite, Chief Justice of the United States.

At Detroit, this 15th day of July, A. D. 1885.

Walter S. Harsh, clerk.

Prosecute the Violators.

If when you call for Hop Bitters the drug store gives you anything but "Hop Bitters" with a green cluster of hops on white label, then that drug store is selling a counterfeit and if he has taken your money for a counterfeit, indict him for the fraud and sue him for damages for the swindle, and we will reward you liberally for the conviction.

See U. S. Court Injunction against C. D. Warner, Reading, Mich., and all his servants, agents, druggists, and other imitators.

By the Poison Route.

By the Poison Route.

New York, Sept. 8.—This morning

the dead body of a man was found in

a summer house in Central Park. He

was about sixty years of age and had

gray hair and a full gray beard. On his

person was two phials of poison, labeled

at Washington, a package of arsenic and

a large revolver. He is supposed to be

P. S. Bush. He had letters addressed

to all newspapers of the city.

Death of Mrs. Bowser.

Elizabeth, wife of Isaiah Bowser,

died at Hoagland, Ind., Sept. 4, 1885,

aged 44 years, 1 month and 4 days.

The body and her family are well known

here, having lived here for a number of

years, and were highly esteemed by all

who knew them. Her afflictions were long

and severe, but as only a true Christian

could do, she endured it patiently and

died in great peace. She leaves a kind

husband, three sons, one daughter, three

sisters, an aged father and mother, with

many friends to mourn. The funeral

services were held in the Lutheran

church just west of Hoagland, Saturday,

and conducted by Rev. J. P. Stewart,

of the U. B. church, of this city. Several

months before she died, she selected the

minister, the text and the hymns for her

funeral. We all join in sympathy for the

bereaved.

The Wabash Gossip.

General Master Mechanic Barnes says

he will not resign his position if his

health permits him to hold it. He is now

suffering from pleurisy and Mrs. Barnes

is quite ill. This morning with Master

Car Builder Martin and Master Mechanic

Morris he made a tour of the Wabash

shops. The Associated press dispatches

tell us that Colonel Talmage made a set-
tlement with the Knights of Labor,
agreeing to give old looked out men the
preference of all others in hiring new
men. These are the terms Mr. Barnes
predicted a week ago would be made.
The Sentinel gave them at the time.

A Naughty Cousin.

Elizabeth Wasselach stepped into

Justice France's court this morning and

charged Fred Greenman, her cousin

with being the papa of a child she car-
ried in her arms. Greenman, who is the
son of a wealthy farmer, did not deny the
impeachment, but provided for the
support of the infant and gave the girl
\$250 in settlement of the little affair.
Miss Elizabeth has not been over much
more than a year and first lived with her
uncle. She now resides in the city.

The Bush Fire.

An adjuster representing the Liver-
pool, London and Globe Insurance com-
pany arrived in the city to-day. It was
in this company the Bush warehouse
building and fixtures were insured for
\$8,000 and he comes here to negotiate the
claim that the Messrs. Bush can at once
rebuild. In addition to the \$25,000
insurance held in the Lombard agencies,
D. L. Harding held \$5,000 on the build-
ing and stock, making the total insurance
\$38,000.

Equine Paradox Matinee.

morrow. Each lady will be presented

"Nettie" and after the performance the
audience can go on the stage and pet
the horses. The smallest horse in the
world will also appear at the Wednesday
matinee. He was born seven weeks ago
at Detroit, and weighs only thirty
pounds.

ANARCHY

About the Next Thing in Spain.
By Cable to THE SENTINEL.

PARIS, Sept. 8.—The majority of the
newspapers here expect the strong anti-
German feeling provoked throughout
Spain by the Cardenas affair will result
in a revolution in that country, as the
people manifest a hostile feeling against
King Alfonso and his ministry. Lopez
Dominguez will be made premier of
Spain. He alone can prevent anarchy
and command peace. His acceptance is
not confirmed.

King Alfonso has just declared he has
confidence in his present ministry, and
preferred peace to bloodshed. The king
believes Germany will meet him half
way and already advises come that the
German gun boat has withdrawn from

A DELUGE

Rushes on Parsons, Kansas.

By Telegraph to THE SENTINEL.

PARSONS, KAN., Sept. 8.—Heavy rains
have flooded the streets and water
rushed through with fearful velocity,
covering the walks and flooding cellars.
The city is surrounded by water, which
in some places is several miles wide.
Many people living in the suburbs of
the city are compelled to move to higher
ground. Crops on bottom lands are a
total loss. No train from Kansas City
came in since Sunday night. In several
places east and north of here water is
running over the track and washouts are
feared.

The Great Yacht Race.

By Telegraph to THE SENTINEL.

NEW YORK, Sept. 8.—The cup for
which the "Genes-
ta" and "Puritan" are
now contesting is held in this country
by virtue of the sailing of the yacht
"America," and was won thirty-four
years ago, and has never been recaptured
by the English sails. It was
offered by the Royal Yacht Club, in
1851, during the great World's Fair of
that year, open to yachts from all na-
tions. The race in which the "Ameri-
ca" carried off the cup was called on
August 25, there being eighteen entries.
The "America" won by twenty min-
utes ahead of the best of the other ves-
sels.

SANDY HOOK, Sept. 8.—The bay is
dotted with yachts of every size and
shape. Each is crowded with people
who have come to witness the race for
the American cup, between the British
yacht "Genes-
ta" and the American
yacht "Puritan." The program of the
committee governing the international
race between the vessels, was as fol-
lows: The first race will be twenty
statute miles to windward, or to leeward
and return from Scotland lightship, if
it is possible to make a course from
that point; if not, from Sandy Hook
lightship.

The "Puritan" was saluted by nearly
every steam yacht in the fleet, while on
her way to the Scotland lightship, the
starting point. The "Genes-
ta" re-
mained in the horseshoe while Mr.
Wm. Krehl, of the New York Yacht
Club, representing the "Puritan," was
put on board from the judges' boat.
She then proceeded under sail, on the
port, and took to the lightship. The
English yacht was also saluted by a
large fleet of yachts now under way.
The tide was running flood during the
forenoon. Two hundred and seventeen
vessels, of all sizes and rigs, were as-
sembled within a circle of a mile of the
Scotland lightship. After a tedious
wait of two hours, after the arrival of
the contestants at the lightship, the
starting signal was given from the
judges' boat at 1:35. By skillful ma-
neuvers the skippers of both yachts
brought them close to line between the

judges' boat and lightship on the port
tack, to cross it. In a few sec-
onds after the starting sig-
nal, the Puritan slipped across first,
close up to the judges' boat at 1 hour,
35 minutes, and 55 seconds, but for
some reason Captain Centro, of the
Genes-
ta, tacked to the starboard just
before reaching it, losing 1 minute, and
42 seconds, being handicapped 37 sec-
onds thereby. She crossed at 1 hour,
35 minutes, and 37 seconds, the official
time. Captain Crocker, of the Puritan,
which boat looked very handsome
with her main sail, sprit topsail, meant
"fight" from the start. As the Genes-
ta crossed the line, the Puritan came
about, and in thirty seconds had filed
away on the starboard track, with the
Genes-
ta a hundred yards on her lee
beam. The course was right in the
wind's eye, southeast, and the tug had
started ten minutes before to lay out
the twenty miles to windward and
place a stake buoy for the yacht.
The yachts cheered them by shouts
from its hundred spectators, and the im-
mense flotilla of pleasure boats that
witnessed it. The contestants headed
east of their first reach. Finding he
could neither pass the "Puritan" to
leeward, or "out-point" him, Captain
Crocker, after twenty-three minutes,
suddenly put the Genes-
ta about to cross the "Puritan" stern, but Capt.
Crocker put his helm down at once,
bringing the handsome white sloop
round in forty seconds later. The
Genes-
ta was full of tricks, for round
she came again, and in less than a
minute followed by the Puritan again
in 30 seconds. Both yachts were car-
rying exactly the same canvas. Instead
of gaining by the little skirmish which
he inaugurated, Capt. Crocker had lost,
and the Puritan gained decided advan-
tage. Both at a rate of 3.57 reached
to the southward. Now the Puritan
began to open a gap between herself
and the Genes-
ta, and when they next
tacked to the cartwheel, at 4:11,
she was fully three-fourths of
a mile to the windward of her antagon-
ist, and one-eighth of a mile ahead.
At 5 o'clock and 11 minutes both tacked
to the southward again, and now the
Genes-
ta was over a mile on the Puritan's
lee quarter. At 6:30, when the
judges' boat arrived at the outer mark,
it was sundown. The winds were
growing lighter, and the yachts being
then two miles to the leeward, it was
evident the race could not be sailed
within the required time of seven
hours. So the regatta committee
ordered it postponed until to-day, when
the boats will start at the same hour,
and over a similar course. The con-
test is thought by experienced yacht-
men to be convincing proof that the
Puritan can beat the cutter under any
conditions.

THEY'VE BEEN SEEN.

The Absconding Township Trust-
ees of Davies County.

By Telegraph to THE SENTINEL.

WASHINGTON, Ind., Sept. 8.—There
are some new developments in the Davies
county trustee funds. Grimley, Brown
and Clark, the absconding trustees have
been seen and interviewed in Hamilton,
Ont. M. J. C. Billheimer, one of the
attorneys of Washington, went to Canada
shortly after they disappeared, and came
across them in Hamilton. Mr. Billheimer
says, "When I arrived in Hamilton, Ont.,
I found three of the glaucous trustees
I ever saw."

They offered no apologies or explana-
tions concerning their scheme, but
blamed a Chicago party for a good part
of the mischief. "I do not believe the
three trustees have much left, but I
think the Chicago man beat them out of
about all they raised on the fraudulent
warrants, because the paper was made
out to his order and he made no promise
to hand over the money to them as he
disposed of the paper. It is a fact, how-
ever, that neither of the three could ap-
proximate how much paper they had is-
sued. The total amount cannot be esti-
mated at less than \$250,000 for the
three townships." This and the
fact that Posey county had
discovered an apparently illegal issue of
\$4,000 of certificates by a former trustee
has caused consternation among people
of this section and may result in an extra
session of the legislature for the purpose
of amending the laws, which at present,
it is said, allows trustees almost unlim-
ited power in raising money for which
value received does not enter as a con-
sideration.

The Corn Crop Safe.

By Telegraph to THE SENTINEL.

CHICAGO, Sept. 8.—The Farmers'
Review prints the following summary:
On the corn crop the outlook is based
on its latest reports from its corre-
spondents. The cold, damp weather
which has prevailed during the past
week has retarded the maturity of the
corn crop. In spite of it, however,
some progress has been made. Frosts
have been experienced in many locali-
ties, but none of sufficient severity to
do any injury to the corn. At this
writing, September 7, we judge that
three-fourths of the corn of the entire
country is past danger from frost, and
we have a strong confidence of the full
maturity of the largest crops of corn
ever grown in this country.

Mistaken for Consumption.

We have known persons to doctor for
consumption, all to no effect. Though
they had a cough, felt pain in the lungs,
were depressed, weak, with many other
symptoms tending to that disease, yet
there was no structural unsoundness of
the lungs. These symptoms were all the
painful offshoots of a torpid and dis-
eased liver. We could fill a volume with
testimonials of thousands so affected who
were permanently cured by taking Sim-
mons' Liver Regulator.

The medicine immediately took its place as a valuable tonic and a stimulant for the nervous system, for the kidneys and the bladder, for the stomach and the bowels, for the lungs and the throat, for the heart and the blood, for the brain and the nerves, for the eyes and the ears, for the nose and the mouth, for the skin and the hair, for the bones and the muscles, for the joints and the ligaments, for the tendons and the cartilages, for the sinuses and the glands, for the ducts and the excretory organs, for the reproductive system and the organs of sense, for the whole body and the whole mind.

"I ache all over!" What a common expression; and how much it means to many a poor sufferer! These aches have a cause, and more frequently than is generally suspected, the cause is the Liver & Kidneys. No d sense is more painful or serious than these, and no remedy is so prompt and effective as

It remedies has just been recognized that it is so effective in ALA, KIDNEY AND LIVER COMPLAINTS, MAINTAINING DYSPEPSIA, etc., and yet it is simple and pure. Science and medical skill have combined with wonderful success theories which nature has provided for the cure of disease. It strengthens and purifies the whole system.

"Yes, thank you, Sir, the doctor said the medicine was for my kidneys, but I was not sure. I have been very nervous lately, and I feel that I am not getting on my feet. I have used it for three months and after that of the kidneys, and it is the most wonderful combination of words and facts I ever saw."
